Personal Information

Address: Alexandria, Egypt.

Date of birth: 10 / 06 / 1997

Nationality: Egyptian

Marital Status: Single

Profile

Frontend Developer with hands-on experience in building responsive web applications using Angular, HTML, CSS, JavaScript, and TypeScript. Adept in using various CSS frameworks, libraries, and APIs to create dynamic and scalable applications. Strong focus on performance optimization, authentication, and data handling with Angular. A quick learner and problem solver with a Bachelor's degree in Commerce (Accounting).

Education

Bachelor of Commerce - Accounting Department

Alexandria university (2015 -2019)

Frontend Development Training:

Route Academy (Dec 2023 - July 2024)

Completed a comprehensive course on Frontend Development focusing on Angular and modern web technologies.

Skills

Frontend Technologies: Angular 2+, JavaScript, TypeScript, HTML, CSS

CSS Frameworks & Libraries: Angular Material , PrimeNG, Bootstrap, Tailwind CSS, Sass

Additional Tools: jQuery, APIs, RxJS

Version Control: Git, GitHub

Responsive Web Design: PrimeNG Flex, Bootstrap, Tailwind CSS

Languages: Arabic (Native), English

Projects

1-E-commerce Website (Angular 16, Bootstrap) [GitHub](#)

- Developed a responsive e-commerce website using Angular and Bootstrap for frontend design.
- Implemented authentication and CRUD operations for cart and Wishlist using APIs.
- Features included lazy loading, pipes, and interceptors for secure token-based communication with the backend.
- Enhanced performance with efficient use of Angular modules.

2-NoteApp (Angular 17, PrimeNG) [GitHub](#)

- Created a responsive note-taking application with Angular and PrimeNG Flex for a seamless UI/UX across devices.
- Integrated @rxweb/reactive-form-validators for authentication (login and registration).
- Built filtering and search functionality using pipes and ngModel for two-way data binding.
- Managed backend token handling via interceptors for CRUD operations on notes.

3-Recipe Finder (Native JavaScript, jQuery, Bootstrap) [GitHub](#)

- Designed and developed a responsive recipe web application using vanilla JavaScript and jQuery.
- Integrated APIs to display and search for recipes with a fully responsive design.
- Utilized Bootstrap for mobile-first design and enhanced UI elements

4. Quiz App (OOP, Native JavaScript, Bootstrap, API) [GitHub](#)

- Developed an interactive quiz application using Object-Oriented Programming (OOP) in native JavaScript.
- Integrated APIs to dynamically fetch and display quiz questions.
- Designed the interface with Bootstrap, ensuring full responsiveness and a smooth user experience across devices.
- Focused on clean, modular code to enhance maintainability and scalability without relying on external frameworks.

Certifications

-Frontend Development Course (Route Academy)
